ABOUT THE ROBOT

• Robot front

Wing Light

The flashlight changes colors gradually when power on and turns off when power off. You can use the remote controller to control it.

LED Eye Light

The eye light turns solid when the robot remains still, blinks when the robot makes a sound or displays movements and turns off when power off.

Heart Light

The heart light turns solid in standby mode, blinks quickly when speaking and turns off when power off. Press the light, and the robot will stop.

Talk Mode

In standby mode, pick up one of the 19 topics and speak to the robot to activate it to talk with you.

Bottom Wheels

Bottom Wheels
